FA Goals and Objectives

The facility-planning program of the district will provide for new developments in instructional and related activities that affect facility utilization, shifts in population, and changes in condition or obsolescence of facilities.

Approved:

FB Building Committees

The board may appoint building committees for assessing general or specific facility needs of the district and for advising the board.

Approved:

FC Memorials, Funerals, and Naming of District Facilities

FC

(See KG)

Requests to use district buildings and/or facilities for displaying memorials, hosting funeral or memorial services, or honoring a person with its name shall be considered in accordance with the following provisions.

Memorials

As places designed primarily to support learning, school sites should not serve as the main venue for memorials for students or staff. Permanent memorials for deceased students or staff shall be limited in form to perpetual awards or scholarships for district students.

Any permanent memorials in existence before the adoption of this policy can only be removed by board action.

Funerals and Memorial Services in District Facilities

Use of school facilities for funerals or memorial services is discouraged. If requests are made to hold funeral or memorial services at district facilities, such requests will only be considered if any services are scheduled after school has dismissed for the day or on weekends.

The superintendent shall handle requests for funeral and memorial services.

Naming of Facilities

The board will consider requests from school and community groups to name an athletic or other school activity facility, building, or a portion thereof for a person provided the proposed name has special significance and/or the person has made an outstanding contribution to the school or the school system. The board shall consider naming requests after they are recommended by the superintendent.

Approved: 07/11/2022

FD Long-range Planning

The capital outlay needs of a school district are continuing in nature. The board expects the administrative staff to conduct long-range planning activities in order that the district may be able to project capital outlay needs in an organized manner. Such long-range plans may include provisions for recommendations from consultants, architects, the school board attorney, the school district staff, patrons of the district, and representatives from local, state and federal government.

A long-range needs study will consist of an inventory of existing facilities and their potential use or obsolescence in the projected instructional and related program, enrollment trends, needs for community use, site provisions, and financial implications.

Approved:

FD-R Long-range Planning

The superintendent shall report to the board of education on or before the first day of March each year his/her recommendations, concerning the capital outlay needs of the district.
