NEWS

"Choose Kind"

On December 18th our K-12 students, faculty, and staff saw the movie "Wonder." In addition the K-5 students visited the care homes in Seneca. This opportunity was provided by the Eagle Booster club and the Seneca Theatre. At the beginning of the 2nd semester we will be starting the #ChooseKind program that goes along with the movie and the precept, "If you have the choice between being right and being kind, choose kind." I would like to thank the Eagle Booster club and the Seneca Theatre for making this possible for our school.

M.T.S.S.

We completed our second round of FastBridge screening and have been progress monitoring our students in their current groups. Our teachers are ready to re-group and move forward with new tiers. Several of our teachers have reported growth in many of their student's skills in both math and reading. We are continuing to learn and grow with M.T.S.S and our excited to see what the 2nd semester brings.

P.B.I.S.

Our system for recognizing positive behaviors really took off in the 2nd quarter. Several of our students received all ten incentives. The teachers did a great job of recognizing the behaviors they wanted to see and the students did an awesome job of following the expectations. This system has been going well so far and I believe it will only continue to grow as more and more students get recognized for their positive behavior throughout the school day.

Class of 2017

The class of 2017 was recognized by the Topeka Capital Journal in their Distinguished Kansans Section for their end of the year wrap up. We are proud of the generosity of the class of 2017 and are excited they are being recognized for their decision to give back to those in need.
