NEWS

2018-2019 Class Schedule

For the upcoming school year we made some slight changes to our schedule. This year our 9-12 students will have a 35 minute advisory period. This period will consist of students working on Career Cruising, exploring different careers, and developing individual plans of study. Students will still have a 25 minute seminar at the end of the day for organization meetings and to work on homework. This year will be the first time our 6-8 will also have a seminar. I'm excited to see us grow in the area of career cruising and individual plans of study.

Summer Activities/Camps

As we reach the dog days of summer, activities will slow down. The month of June is jammed pack full of weights, camps, and summer leagues. The boys lift and do football activities Monday, Wednesday, and Friday, while the girls lift and do volleyball on Tuesdays and Thursdays. Boys junior-senior high basketball camp was May 29-June 1, junior high volleyball was June 18-22, junior girls basketball was June 25-29. High school football and volleyball camp will be July 9-13. We have a high participation rate and our students keep active in the summer months. I would like to thank our coaches and athletes for putting in the extra time to help develop and grow their programs. I would also like to thank the parents for their continued support of our activities and helping make our summer activities successful.

Summer Maintenance

Summer maintenance is in full swing and several projects have been completed. The janitors have been diligently working on preparing the building for the first day of school in August. I would like to thank them for their hard work, our faculty, staff, and students appreciate all the work they do.

Booster Club

Once again this past year our booster club showed their continued support for the success of our students covering the cost of many activities for our students. The booster club supported many activity trips including: K-5 field trips, K-5 movie, K-12 "Choose Kind" Program, 6-8 KSU Challenge Course, as well as many other items and materials for our faculty, staff, students, and school. I would like to thank all of the booster club members for their continued dedication to our school as well as the booster club board members for the extra time in effort they put in to help grow our booster club and raise money for our school.
