News

Construction Update

The construction is up and rolling and progress is being made. The doors have been hung and painting has been completed in both areas. On July 9th the casework for the office and computer lab will be delivered, it will be installed by weeks end. Once the casework is installed the floor in those two spaces will be laid. After an inspection from the fire marshal we will be able to access those two spaces. The casework for the library will be in at the end of the month and installed shortly after, the current plan is to have everything complete by enrollment. Once again, I would like to thank everyone for making adjustments and being flexible.

Summer Maintenance

While students and teachers are away the custodians are busy prepping the building for the upcoming school year. The custodians have done a great job of working around construction, moving rooms, and cleaning rooms. The building is almost ready for the start of the school year with the upstairs fully complete and the downstairs just needed wax put on the floor. I would like to thank the custodians for the hard work and dedication to making our school look great year round.

Linda Lattimer

June 28th was Linda's last day as she has decided retire. She will be missed in our building. As long as I can remember Linda was a part of the Axtell School Family. She has done so many things for our school, students, faculty, and staff over the years. From cleaning rooms, writing letters, and putting up bulletin boards she has gone above and beyond her job description. I would like to thank Linda for all of her commitment and dedication to our school, we will miss her more than she will ever know and she will be hard to replace. I want to wish her a happy retirement and hope she enjoys the extra time with her grandkids!

Greenhouse Update

The greenhouse has been delivered and everything is ready to go. A date to work on the building the greenhouse has not been set but we are looking around the week of July 16th. We will soon set one once the farmers can get all of their crops sprayed and wheat harvested.

Summer Moratorium

This summer marks the first time KSHSAA has had a summer moratorium. The week of July 1-7 student athletes will be off from camps, workouts, conditioning, and the weight room. This is a good opportunity for all of our athletes and coaches to recharge their batteries. It is also an opportunity for many to catch up on family time, work, and possibly go on vacation without missing any activity. I encourage our athletes and coaches to take this opportunity to rest and relax as they put so much time and effort into their respective programs.

Upcoming Events

Date	Event	Time
