Building Report January 2021 BOE Meeting

MTSS Progress: The winter screening window was December 2-16, 2020. Reading and math results were reviewed during the PLC meeting the afternoon of December 18. Grouping and intervention adjustments were made with changes implemented at the start of second semester. Due to some COVID-related absences, a few students will complete screening at the start of second semester. Analysis of our behavior and social-emotional data from second quarter will be the primary focus of our January 11, 2021 PLC. Also during the month of January, grade-level teams will be meeting individually with district staff to review student and MTSS program data.
