## Building Report June 2022 BOE Meeting

**End of School Year Activities:** We were able to enjoy several end-of-the-year activities to round out the 2021-22 school year. We had beautiful weather for our Field Day on Monday, May 16. It was perfect for our students and parents to enjoy the day. Thank you to Mrs. Kuckelman for all her hard work on this great annual event.

- The SES Social Committee organized a luncheon on May 19th for staff who were retiring at the end of the year or are leaving to pursue other endeavors. Those individuals honored were Carrie Holthaus and Sheryl Plattner.
- The 5th-grade class held a spring band and vocal performance on Monday, May 9th. Under the direction of Katie Topp (band) and Elysia McGill (vocal), students put on a very enjoyable performance that displayed their development in both areas. We were also able to have recognition for our leaving 5th graders and we are excited to see the wonderful things the Class of 2029 will accomplish next year at SMS.

**Building Maintenance:** The SES custodial staff is busy preparing part of the building for the 2022-23 school year, working around our construction schedules. Head custodian Aaron Koch, Louis Aberle, and summer help Calvin Evans have created a summer cleaning schedule and are currently focused on deep cleaning rooms that are not affected by the renovation.

### MTSS Implementation:

- Spring screening for Fastbridge assessments concluded in mid-May. Results have been reviewed by teachers and the building leadership during team and committee meetings. We were very pleased with the overall growth of our students during this school year. During the summer, we will use this data to help place students in appropriate interventions for the start of the 22-23 school year in August.

**Trauma Responsive Training:** Last week, some SES staff members and Ms. Willis attended training to help coach our remaining staff through the practice of using trauma-responsive techniques in the classroom to help students reach their full potential, no matter what situations they face both inside and outside our building.

**SES Summer School/Camp Adventure:** The weeks of June 13th and 20th, SES will have Summer School from 8:00 am-11:30 am at SMS. Our “campers” will be able to strengthen their skills in reading and math, as well as plan, design, and build projects with “Marble Arcade” and “Open Mic” STEM rooms. Look for pictures and updates on Facebook!
