Re: August BOE Meeting Building Report

---

1. **Start of School:** Our BLT is continuing discussions on adjustments we will be making for the start of school. We have referred to the “Operations” section of the KSDE Navigating Change guidelines. We will be adjusting plans to accommodate for our behavior expectation review and IPAD Bootcamp. We will also be spending time reviewing changes in our building procedures and proper cleaning protocols for students, staff and physical spaces on a daily basis.
2. **6<sup>th</sup> Grade/New Student Orientation:** We have been discussing and planning a possible date for a 6<sup>th</sup> Grade/New Student Orientation before the start of school for students. We were unable to host several events last spring that allow us to help these students with transitioning to a new building.
3. **Enrollment:** Enrollment was held at Sabetha Middle School on Wednesday, August 5<sup>th</sup>. Our online enrollment portal is working well. As of Wednesday morning, we have had approximately 60 students pre-enrolled.
4. **Building Safety:** Dean and I have continued our discussions on possible changes or updates to our building cleaning procedures and traffic patterns throughout the day and the building. Dean takes great pride in our building and the safety of everyone in it.

Thanks,  
Matthew D. Garber
