Date: 10/7/20

Re: October BOE Meeting Building Report

- 1. Building Operations:** We have continued our new operations and review any challenges and their effectiveness regularly.
 - **Before School:** Our doors open at 7:30 AM. Students are moved to three separate locations by grade level to promote our cohort groups.
 - **Hallways:** All of our hallway travel proceeds in the clockwise direction. Students are able to use their backpacks throughout the day and take them to their classes. Locker usage between classes is restricted to promote physical distancing.
 - **Lunch:** Students maintain physical distancing in the lunch line. Tables have been added to promote physical distancing and reduce the number of students at each table. Students have assigned seats.
- 2. Physical Distancing:** We have stressed to both our students and staff the importance of physical distancing when possible. As staff, we performed a survey on a school day to determine who we had been a 'close contact' with at that point during the day. It was informative and led to some procedural changes for our staff members.
- 3. Fastbridge SAEBRS/MySAEBRS:** As part of our SEL process, the SAEBRS and MySAEBRS screeners will be completed early this month. Teachers complete the SAEBRS screener for a group of students that are assigned to them. The MySAEBRS screener is completed by the student.
- 4. School Activites:** Several of our student events have been postponed. We are hoping to re-schedule or find other options for our students. The events include: Grandparents Days, Randy Nadler presentation, Building Social events, etc.

Thanks,
Matthew D. Garber
