The Student Led Conferences also fosters and strengthens the three-way partnership between the students, families, and school to offer students the greatest potential for academic, social, and emotional growth. We are looking forward to this opportunity.

Advisory: Grades 6-12 will meet again this month and continue work on their Individual Plans of Study, Xello, and preparing for Student Led Conferences. Seniors are working on their Senior Videos as well. A special Thank You to Mrs. Evans and for her guidance and work to help our students prepare for their future! Thank you to the student IPS Ambassadors and advisory teachers for their work as well!

MTSS: At the January 11, PLC meeting, we continued conversations about implementation of progress monitoring in Reading and Math for intervention groups. We reviewed our winter screening data and set up intervention groups and will begin interventions as soon as possible. We are currently looking at our behavioral/social emotional data and discussing possible individual support in the area of social-emotional learning. Our guiding questions are: Are students making progress? Are interventions working? How will we continue to use the data?
