

# Drills: (fire/tornado/crisis)

- Drills are required by the State of Kansas in all three areas. Like most drills, students will practice for safety, timeliness, and repetition.
- Students will be assigned designated areas in which to congregate in the case of fire and tornado drills and wait for instructions.
- Sabetha Middle School will be following the guidelines of SPAR (Sprint Prepare Attack Reunite). Students/teachers will practice different scenarios in the hope to be as prepared as possible.
