

Leadership

- 8th graders are the building leaders. We as a staff hope to instill great leadership qualities in our students, but especially the 8th graders.
- 8th graders will be asked to weigh in on decisions that affect the student population such as: end of nine weeks activities, movies to be watched by the student body, dance music and so many other items.
- As a staff we also believe, with leadership comes increased responsibility. We also advise students that with leadership, sometimes compromise is required. Therefore, we ask that you encourage your child to be the best leader, the most responsible 8th grader and kindest friend to all students in the building.
- As building role models, 8th graders should welcome responsibility, grow from adversity and develop life-long relationship building skills.
